RESEARCH INTERESTS

Statistical machine learning, high-dimensional statistics, robust statistics, optimization, causal inference

EMPLOYMENT

The Statistics, Data, and Analytics Division, Eli Lilly and Company Indianapolis, IN

Research Scientist, Jan. 2021 - present

Advanced Analytics and Data Sciences, Eli Lilly and Company Indianapolis, IN

Research Intern in Machine Learning, May 2019-Aug. 2019

- Supervisor: Haoda Fu
- Developed boosting algorithms for individualized treatment recommendation

EDUCATION

University of Wisconsin-Madison Madison, WI

Ph.D. in Statistics, December 2020
Minor in Computer Science (machine learning track)

- Dissertation: "Efficient statistical learning of complex data"
- Advisor: Po-Ling Loh

University of Florida Gainesville, FL

M.S. in Mathematics, May 2015

- Cumulative GPA: 4.0/4.0

Jilin University Changchun, China

B.S. in Mathematics, June 2013

- Major GPA: 91/100, overall rank: 2/100

HONORS AND AWARDS

JSM Virtual Travel Award, ASA Wisconsin Chapter, 2020

Student Paper Award, ASA Statistical Learning and Data Science Section, 2020

Student Paper Award, ASA Biopharmaceutical Section, 2020

Graduate Scholarship, UW-Madison, 2015 - 2020

Graduate Scholarship, UF, 2013 - 2015

Outstanding Graduate Award, UF, 2014 & 2015

Outstanding Undergraduate Student Award, Jilin University, 2013

Ping An Scholarship, Ping An Insurance of China, 2012

Outstanding Undergraduate Researcher Award, Jilin University, 2012

First Prize in Mathematical Contest in Modeling, Jilin University, 2011

Undergraduate Scholarship, Jilin University, 2009 - 2013

Publications

Wang, D. and Loh, P. 2020. Robust estimation in high-dimensional sparse heteroscedastic linear models.

Wang, D. and Loh, P. 2020. Adaptive estimation and statistical inference for high-dimensional graph-based linear models.

Wang, D., Fu, H., and Loh, P. 2020. Boosting algorithms for estimating optimal individualized treatment rules.

Presentations

Boosting algorithms for estimating optimal individualized treatment rules. JSM Virtual Conference, 2020.

Boosting algorithms for estimating optimal individualized treatment rules. Invited talk at Eli Lilly and Company, 2020.

Boosting algorithms for estimating optimal individualized treatment rules. Invited talk at Boehringer Ingelheim, 2020.

Boosting algorithms for individualized treatment recommendation. ENAR Spring Meeting, 2020.

Estimating graph-based regression coefficients in high-dimensional linear models. Midwest Machine Learning Symposium, 2018.

Teaching Experience

Instructor

Department of Statistics, UW-Madison & Department of Mathematics, UF

Taught large undergraduate classes (around 140 students per semester), coordinated with other instructors, supervised a group of teaching assistants, constructed the course website, and developed the teaching material

- STAT324: Introductory Applied Statistics for Engineers — Fall 2019 & Spring 2019
- STAT371: Introductory Applied Statistics for Life Sciences — Spring 2018 & Fall 2017
- MGF1107: Math for LS Majors — Summer 2015
- MAC2311: Calculus I — Summer 2014

Teaching assistant

Department of Statistics, UW-Madison & Department of Mathematics, UF

Led discussions (around 3 sessions per semester), wrote weekly quizzes, administered online homework, graded all assessments, and interacted individually with students during office hours. Ranked top percent in TA evaluation

- STAT641: Statistical Methods for Clinical Trials — Spring 2017
- STAT311: Mathematical Statistics — Spring 2017
- STAT324: Introductory Applied Statistics for Engineers — Fall 2016 & 2015
- STAT371: Introductory Applied Statistics for Life Sciences — Summer 2016 & Spring 2020
- STAT327: R programming — Spring 2016
- STAT479: Statistical Machine Learning — Spring 2016
- MAC2311: Calculus I — Spring 2015, Fall 2014 & Spring 2014
- MAC1147: Precalculus — Fall 2013

Professional service and leadership

Reviewer, Annals of the Institute of Statistical Mathematics
Reviewer, Journal of Machine Learning Research (JMLR)
Reviewer, Journal of the Royal Statistical Society: Series B
Reviewer, Statistical Science
Reviewer, Biometrika
Student representative, Statistics Department Climate and Diversity Committee, 2018 - 2019

President, UW-Madison Statistics Graduate Student Association, 2017 - 2018
Founder, UW-Madison ASA Student Chapter, 2017
Vice President, Jilin University Mathematical Modeling Association, 2009 - 2011

Skills

- Computer Skills: R, Python, Matlab, SAS (SAS Certified Base Programmer for SAS 9 & SAS Certified Advanced Programmer for SAS 9), Github, Linux, SQL, LaTeX
- Languages: English(fluent), Chinese(native)
